

## MANAGEMENT ACCOUNTANT

### Us

D.light Design East Africa Ltd. is looking to hire a Management Accountant for their rapidly growing Solar Light distribution business based in Dar-es-Salaam, Tanzania. This person will report to the Managing Director and assist the growth of the company through provision of timely quality management information as well as deputizing when required in our small office.

This position is an incredible opportunity to work with high growth international social enterprise developing technology that will impact millions of people. The company is funded by Silicon Valley and other progressive investors including Mahindra & Mahindra, Nexus India Capital, Acumen Fund, Garage Technology Ventures, Draper Fisher Jurvetson, and Gray Matters Capital.

Our goal is to eradicate kerosene lanterns from earth. To do this we will become the market leader in delivering safe and affordable lighting solutions to over 1.6 billion people who currently do not have access to electricity. In Tanzania we have launched a line of products to provide lighting and energy solutions to 9 million families still using kerosene lanterns.

### You

You are an extremely competent and motivated Manager with experience preparing weekly and monthly management information, processing day-to-day unit and sales revenue volumes, as well as other non-financial information in support of decision making within a business.

This position is based in Dar-es-Salaam, Tanzania and will have the following responsibilities:

- Manage the day to day processing of data
- Preparation of weekly, monthly and annual management accounting information.
- Prepare of "what if" scenarios and project proposal calculations including cost benefit analysis.
- Management petty cash transactions
- Helping D.light Managers to collect appropriate business data for analysis
- Report to Managing Director
- Deputize for Managing Director & Operations Manager in their absence

## QUALIFICATOINS

- Highly energetic self-starter
- Passionate about eradicating kerosene lanterns and providing families high quality light
- Ability to handle large amounts of data with speed and accuracy
- Previous relevant management accounts experience
- Experience of managing a small office team
- Comfortable working in a startup environment
- Fluency in English and Kiswahili a must
- Relevant business qualification

## INTERVIEWS

Interested parties should contact [malcolm.wigmore@dlightdesign.com](mailto:malcolm.wigmore@dlightdesign.com) and provide a resume, a statement of interest and current and expected compensation.

## COMPENSATION

Compensation is commensurate with experience level and relevant qualifications.
