**D.LIGHT DESIGN LAUNCHES FELLOWS PROGRAM**  
***Talented Professionals Sought for Unique Social Enterprise Experience***

**New Delhi, India, 15 January 2009** – D.light Design today announced the launch of a Fellows Program, which connects passionate and talented professionals with one of the world’s leading social enterprises. For terms of three to ten months, fellows will contribute in a significant way to the mission of replacing kerosene lanterns with safe and bright light. Fellows will be placed in a field office in Asia or Africa and work closely with D.light’s international team across three continents and multiple countries.

“D.light is uniquely situated to offer individuals an exceptional experience in the social enterprise space,” said D.light CEO Sam Goldman. “We see the Fellows Program as an exciting way for us to partner with capable and committed individuals throughout the world. This regular infusion of new ideas and new energy can only strengthen our ability to stay on the leading edge of affordable lighting and power solutions.”

Each fellow will be provided with a small living stipend and be supervised by one of D.light’s senior managers. Qualified candidates should have a college degree and at least 3-5 years of professional experience in a related field.

Fellowship positions that D.light is currently recruiting for include business development, marketing, product design, and research & development. Applications and fellowship position descriptions are available at [www.dlightdesign.com/fellows.html](http://www.dlightdesign.com/fellows.html). The first application deadline is February 15, 2009.

**About D.light Design**

D.light Design is an international consumer products company delivering quality energy solutions to families living without adequate electricity. Our mission is to enable households without reliable electricity to attain the same quality of life as those with electricity. D.light will begin by replacing every kerosene lantern with clean, safe and bright light. By 2020, D.light aims to have improved the lives of 100 million individuals. D.light is financed by prestigious venture capital firms including Nexus India Capital, Draper Fisher Jurvetson, Garage Technology Ventures, the Mahindra Group; with investment from leading social enterprise funds, including the Acumen Fund and Gray Matters Capital.
